Dear Friends

One fifth of the population in South Asia is between the ages of 15 and 24. This is the largest number of young people ever to transition into adulthood, both in South Asia and in the world as a whole. The youth of South Asia have the ability to transform the present challenges into opportunities provided the SAARC member states offer business friendly environment.

According to me Young entrepreneurs are an essential element in global economic growth. SAARC Chamber of Commerce & Industry has provided a plate form for assembling of South Asian Youth. It provides us an opportunity to identify and examine the issues impeding the development and growth of young entrepreneurs within the South Asia. By not addressing the issues & challenges faced by young entrepreneurs today we can come across economic, social & political consequences. I recommend every young entrepreneur of South Asia to be a part of this association to create, dream about your organization, to connect with your fellow entrepreneurs, to help and learn and to share success stories and how they could overcome major challenges.
